

CANopen Series Products

USB/CANopen Master Converter

I-7565-CPM

Dimensions

The I-7565-CPM was developed as a standardized CANopen network with highly flexible configuration capabilities. It is a CANopen master solution of USB interface, and has an 80 MHz 186 CPU inside. There is a CANopen protocol interpreter, I-7565-CPM firmware, running in the I-7565-CPM. User can use this converter to process the complex CANopen protocol without increasing the PC loading very much. The rich APIs of the I-7565-CPM library and easy-to-use utility tool can satisfy the requirements of variety and complex CANopen applications.

Features

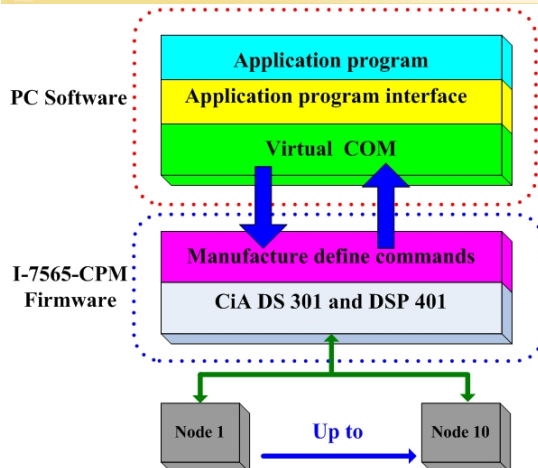

- NMT: Master
- CANopen Version: DS-301 v4.02
- Error Control: Node Guarding protocol
- Allow EMCY receptions
- Provide dynamic PDO functions
- Support SYNC protocol
- Several transmission types of PDO are supported
- Support SDO download/upload segment protocol
- Provide CANopen standard baud rate
- PWR, ACT, ERR, and Tx/Rx LED indicator
- Allow max. 10 CANopen slaves

LED Indicators

LED.	Description
PWR	Indicate power status
Tx/Rx	Indicate CAN messages transmission
ACT	Indicate firmware running status
ERR	Indicate the error status

Main Structure

Pin Assignments

9-Pin D-Sub male connector

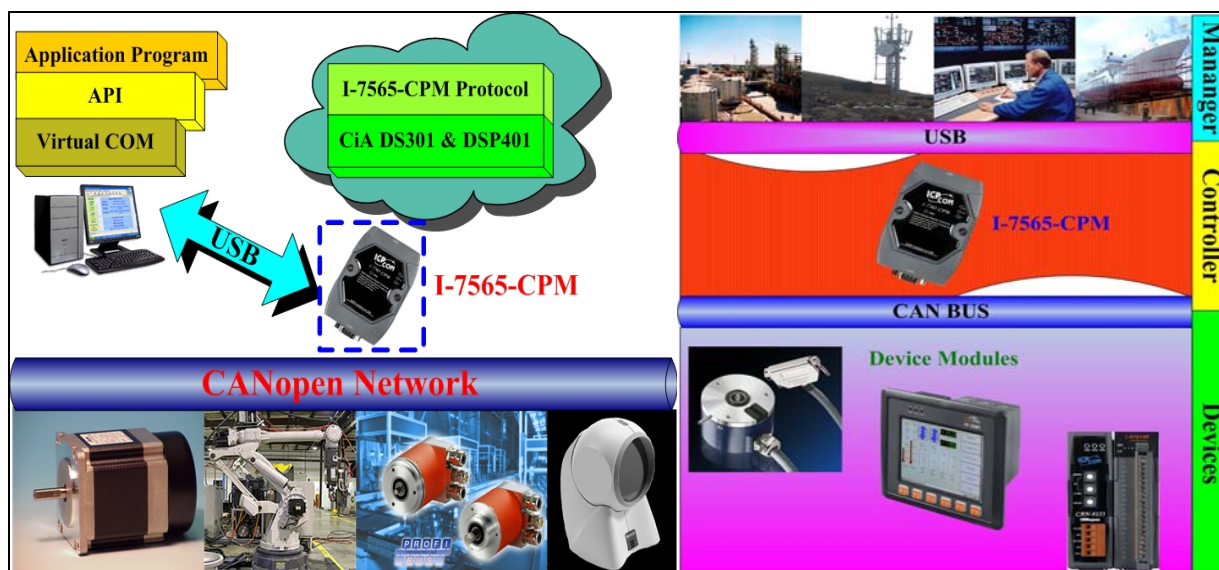

Terminal Resistor Switch

Hardware Specifications

Hardware	
CPU	80186, 80MHz.
SRAM/Flash/EEPROM	512KB / 512KB /16KB
ESD Protection	2 kV class A and 3 kV class B
CAN Interface	
Controller	Phillips SJA1000T CAN Controller
Transceiver	Phillips 82C250 CAN Transceiver
Interface	ISO/IS 11898-2, 9-pin male D-Sub(GAN_GND, CAN_L, CAN_SHLD, CAN_H, CAN_V+, N/A for others)
Transfer Rate	Support 10K, 20K, 50K, 125K, 250K, 500K, 800K, 1M bps
Specific	Follow CiA DS-301 V4.02 and support CiA DSP-401 V2.1
Slave number	support maximum nodes up to 10
USB Interface	
Connector	USB Type B
Transmission speed	921.6 kbps
LED	
Round LED	PWR LED, ACT LED, ERR LED, Tx/Rx LED.
Software	
Driver	Windows 98/ME/NT/2K/XP.
Library	VC++6.0
Power	
Power supply	By USB interface.
Mechanism	
Dimensions	72mm x 101mm x 33mm (W x L x H)

Applications

Ordering Information

I-7565-CPM	Module with one CAN port, CANopen master library of VC++, 80186 80MHz CPU, 512K flash, 512K SRAM, 120Ω terminator resistor selected by jumper.
