Copper SFP HD Video Modules

FiberPlex SFP-BHDV SFP with HD-BNC copper interface for 3G-SDI HD Video

FiberPlex

3G-SDI HD Video SFP

Overview

The SFP-BHDVXC-0000-L is a long-reach electrical Small Form Pluggable (SFP) transceiver module designed with reclockers to transmit and receive SDI signals up to 2.97 Gbps over 75Ω coaxial cables via HD-BNC™ connectors. The cable driver slew rate is automatically configured in order to achieve compliance to SMPTE 424M, SMPTE 292M and SMPTE 259M. The equalizer features DC restoration to compensate for the DC content of SMPTE pathological test patterns. By suppressing accumulated jitter, each reclocker procures optimal input and output jitter performance.

Features

- Compliant with SMPTE 424M, 344M, 292M and 259M
- Supports DVB-ASI at 270 Mbps
- Supports video pathological patterns SD-SDI, HD-SDI and 3G-SDI
- Integrated cable driver (control input signal detection, reclocker rate & lock, voltage and temp, bypass reclocker stage and module info)
- Supports Audio in SDI stream
- HD-BNC™ connectors (75Ω)
- Extended Temperature Range -40°C to 80°C

The SFP-BHDVXC-0000-L provides module identification information and configuration through a two wire serial interface. It is also a hot-pluggable solution for field system upgrade and maintenance. The SFP-BHDVXC-0000-L is interchangeable with other MSA optical video SFP improving product flexibility. Ganged, belly-to-belly, and superposed SFP cage mountings are supported. The module is SMPTE compliant resulting in reduced development effort and cost.

Applications

Typical Applications include Multi-channel/multi-media transport with the WDM16, Distribution amplifiers, Processing cards, Video routers, Broadcast cameras.
